**2018**

**OHIO POLIO NETWORK**

**CONFERENCE**

**TUSCORA PARK**

**NEW PHILADELPHIA, OH**

**SEPTEMBER 15, 2018**

The Ohio Polio Network Board would like to welcome you to the 2018 Ohio Polio Network Conference. It is a time to focus on post-polio syndrome and its many facets. We hope to gain from this experience and take home some new perspectives that will help us in our everyday lives. We also hope to meet new people and above all, enjoy the day. Thank you for coming.

**President**

Patrick Kelly

## Mobility Scooters

We offer mobility scooters to help you or your loved one stay mobile. Designs available for both standard use and for more rugged terrain, our scooters provide independence and mobility.

## Pathway Ramps

Our outdoor ramps help people get in and out of their homes and are suitable for anyone who uses a walker, wheelchair or powerchair. Our heavy-duty ramps are made from rust-resistant interchangeable parts.

## Vertical Lift Platform

Our vertical platform lifts are available in any size to fit porches, decks or indoors. These lifts, which look like open-air elevators, are ideal for people who rely on wheelchairs, powerchairs and scooters.

## Curved Stairlift

Our curved stairlifts can be installed on any staircase, including those with sections, curves, and multiple landings. The rail system is attached to the stairs and floor so no structural changes are necessary.

## Straight Stairlifts

A straight stairlift is a simple mobility solution suitable for two-story homes with straight staircases. The track is attached to the stairs, not the wall, and the chair is compact and folds easily, keeping the stairs accessible for everyone.

# ADVANCED CUSTOM ORTHOTIC SOLUTIONS FOR POST-POLIO

Hanger Clinic provides clinical excellence and a broad array of prosthetic and orthotic solutions. Our clinicians have access to a vast portfolio of national resources including Hanger Clinic's proprietary products and training programs.

Stance control orthoses are available in a variety of configurations that will allow a safe, energy efficient, and more natural gait pattern for patients who meet the criteria.

Universal patient indications for stance control are weak or absent quadriceps, knee instability, slight genu varum/valgum, post-polio syndrome, multiple sclerosis, unilateral paralysis, trauma, and incomplete spinal cord injury.

**Hanger Clinic has 29 locations throughout the state of Ohio to serve your orthotic and prosthetic needs.**
